Salons & Spas

The Beautiful Bride Planner

Your wedding day is the most important day of your life. Let the professionals at Robert Andrew assist in helping you look and feel your best. This beauty planner was created especially for brides by our experts, but as always, we will be happy to customize it to fit your needs.

To schedule services at any of our three locations – or to schedule appointments for the bridal party, the moms or even the groom – just ask to speak to one of our **Bridal Coordinators**. At Robert Andrew, we guarantee to make you a beautiful bride!

Skincare

Schedule your first skincare treatment six months prior to your wedding. Deep cleansing **facials** will leave your skin clear, soft and rebalanced; while **resurfacing treatments** will help eliminate sun damage, hyper pigmentation, fine lines and wrinkles.

We highly recommend monthly treatments to get your skin into shape and keep it that way until your big day. Your aesthetician will analyze your skin and recommend the treatments that are right for you.

Regular skin treatments and a proper home care plan are important in maintaining clear, healthy skin; especially in times of high stress. Ask your aesthetician to recommend a home care plan that will compliment your professional spa treatments.

Hair Removal

As you prepare for your wedding and honeymoon, you don't want the added hassle of shaving or tweezing. **Laser hair reduction** can be done well in advance of your wedding, and can take shaving completely off your beauty regimen. This way, when you walk down the aisle, your skin will be smooth and beautiful, and unwanted hair will be the last thing on your mind. We recommend a series of six treatments for optimum results.

As a temporary alternative, you may also achieve long-lasting, nick-free hair removal with our waxing services. All waxing should be scheduled three days prior to your wedding to guarantee that your skin is soft and smooth for the honeymoon, but not irritated.

Please allow at least 2 weeks hair growth for waxing services. Facial waxing is not recommended for Retin-A or Accutane users. Avoid tanning at least 24 hours prior to appointment.

Body & Soul

Two days prior to your wedding, indulge in one of our **body treatments** to help tone and soften from head to toe. Our contour and slimming wraps work to eradicate water retention and cellulite, revitalize, re-mineralize and firm the skin. Or choose one of our detoxifying or exfoliating treatments that will leave you feeling baby-soft and radiant!

The day before your wedding, let us relax you with a **full-body massage** to relieve the stress of all that wedding planning. For the exceptionally tense bride, we can upgrade your massage to a full 90 minutes. This luxurious treatment uses warm lotion to soothe and relax every muscle, to leave you ready for your special day.

Please arrive at least 30 minutes prior to your appointment to prepare for your spa visit and to enjoy our amenities.

Nail Care

Beautiful nails are an important part of the beautiful bride ensemble. For natural nails, we highly recommend you begin your regimen three months prior to your wedding. Regular manicures will make your nails strong and healthy. The day before the wedding, pretty-up with a **spa manicure** and **pedicure**...or for therapeutic benefits and added relaxation, try one of our specialty pedicures!

Please arrive early and bring open-toed shoes for pedicures.

Enhancements

Non-invasive cosmetic treatments are becoming the most sought after treatments for brides-to-be, their mothers and others in the bridal party who want to look and feel their best on the big day. For **Botox®** and **dermal fillers** we suggest that you allow a month for treatment and recovery. This will allow you to enjoy the benefits of treatment during the weeks leading up to the big event, and ensure that your appearance will be as beautiful as possible on your wedding day.

Additional enhancements such as **teeth whitening**, **semi-permanent eyelash extensions** and **UV-free Mystic Tan®** may be done a few days prior to your wedding. Not only will these services enhance your wedding photos, but they are quick, safe and will last throughout your honeymoon!

Hair & Make-up

Next to your dress, your hair and make-up are the most important part of your beautiful bride image. We strongly recommend you schedule your **bridal style** and **make-up consultation** 6-12 weeks before your wedding, to ensure enough time to finalize the perfect look. As always, our professional designers will advise to help create a look that is best for you.

Do you have **highlights** or get regular **color** retouches? How about **perms**? We advise that all chemical services be done two weeks before your wedding date.

The big day has arrived! Your bridal style and make-up will be completed just hours before your wedding. Encourage your bridal party to schedule their hair and make-up this day as well. It's very important to have professionally styled hair and the correct photographic make-up to withstand the demands of a wedding. Our professionals will make sure your look holds up under harsh photographic lighting, and then carry you through the rest of a long, but exciting day.

Please arrive early with clean, dry hair for style appointments. Wear a button-down shirt and don't forget your veil! When scheduling Bridal Make-up & Styles for your bridal party, please make sure all names, addresses and length of hair are given.
